## OHIO MINING WORKSHOP

**NOTICE IS HEREBY GIVEN** a mining educational workshop will be conducted by the Corps of Engineers Regulatory Branch (Huntington & Pittsburgh). The Ohio Environmental Protection Agency (OEPA) and the Ohio Department of Natural Resources - Division of Mineral Resources Management (DMRM) will also participate in the workshop.

The purpose of the workshop is to provide applicants and their agents an overview of Section 404 of the Clean Water Act (CWA) permitting requirements. Section 404 of the CWA requires authorization from the U.S. Army Corps of Engineers (USACE) for the discharge of dredged or fill material into waters of the United States, including wetlands. This educational workshop will focus on preparing a preliminary investigation of waters of the United States, performing an alternatives analysis for avoidance and minimization of waters of the United States, and preparing a compensatory mitigation plan to offset the loss of waters of the United States.

The Integrated Application Process for Coal Mining Activities in the State of Ohio will also be presented. Representatives from the USACE, DMRM, and OEPA developed the Integrated Application Process for Coal Mining in the State of Ohio with the intent of integrating the permitting processes of each agency into a unified process.

Attendance is open to the public.

**DATE:**

26 October 2004

**TIME:**

The workshop will begin at 9:00 a.m. and end at 4:00 p.m. There will be a lunch break between 12:00 p.m. and 1:00 p.m.
